

## BLENDING ADDITIVE

Keep Blending Additive sealed when not in use

Description:	<p>Specially formulated solvent designed for dissolving edges of fade-out areas invisibly into the background in the process of spraying topcoats (making spot repairs). It is also used for diluting the colour in multi-stage colours.</p> <p>To be stored above 4°C / 39°F.</p>
Product and Additives:	Blend Additive, <b>9999</b> .
Basic Raw Materials:	Various solvents.
Application Process:	<p>Follow fading out of the basecoat, the fade-out area can be resprayed immediately with pure Blending Additive.</p> <p>Perform this in two steps:</p> <ul style="list-style-type: none"><li>• Respray the fade-out area sparingly with the Blending Additive.</li><li>• Immediately thereafter (after 10-15 seconds), respray again with Blending Additive.</li></ul> <p><b>Note:</b> Keep Blending Additive sealed when not in use.</p>
Health & Safety:	Ref to text on label and MSDS. Flammable – keep away from sources of ignition. No smoking. Do not breathe in spray. In case of insufficient ventilation, wear suitable respiratory equipment.
